

Essential Gas Safety Information

❖ Emergency Tel: 07739 882001 ❖

Always read and observe appliance manufacturer and our instructions.

IF YOU CAN SMELL GAS OR SUSPECT A LEAK:

- **Do not** switch any lights or electrical equipment **on** or **off**.
- No matter where you smell gas **close** the emergency shut off valves which are situated under the hood of the meter box.
- If the smell or leak is indoors, open doors and windows.
- **Call us** so we can come and make the gas supply safe.

Emergency Control Valve

Emergency Control Valve

EMERGENCY GAS SHUT-OFF

IF A FIRE OCCURS:

- **Dial 999** to call the fire brigade. Ensure you tell them an **LPG tank** is on the premises.
- Leave the premises and go to a **safe place**.

INSTALLATION AND SERVICING

- By law, gas fixed indoor appliances **must be** installed and maintained by a qualified registered installer.
- **All gas appliances need regular servicing.** Indoor appliances should be serviced annually. Read the appliance instructions for guidance. Never tamper with the equipment.
- **Always** provide adequate ventilation for appliances.
- **Never** use an appliance or equipment which is damaged in any way.

CARBON MONOXIDE

- Carbon Monoxide is a poisonous gas which can be formed by burning any fuel if the appliance is not properly installed or maintained.
- Carbon monoxide detectors are widely available and it is **strongly** recommended that every household has one.
- If you ever suffer any of following symptoms when appliances are in use: headaches; nausea; dizziness, then turn them **off** immediately, and have them checked by a qualified registered installer.
